

FELTON ROAD

2011 Felton Road Pinot Noir *Cornish Point*

Tasting Note

Ripe plums, dark florals and complex spice abound on the nose. Flavours of rich fruit compote laced with spices coat the palate. The tight core of fruit is encased by chalky and beautifully fine tannins. Deep and brooding and a typically muscular and hedonistic Cornish Point.

Introduction

Beginning with meticulous site selection and vineyard design started in 1991, Felton Road's story is one of refusal to compromise. A strict 100% estate policy with fully organic and biodynamic viticulture (Demeter certified) ensures that our fruit arrives at the winery as pure as it can be, while our entire estate comes as close to true sustainability as is possible. A commitment to hands off winemaking: gravity flow, wild yeasts, wild malo, an avoidance of fining and filtration all help preserve the wine's expression of its terroir. No additions or adjustments are performed unless they absolutely need to be. The result is Riesling, Chardonnay and Pinot Noir which we believe express the authenticity and complexity of our unique vineyards.

Vineyard & Viticulture

Felton Road farms three properties totaling 32 ha in the Bannockburn sub-region of Central Otago. This wine is from Cornish Point vineyard where the close proximity to water creates a unique mesoclimate. Meticulous summer management of a single vertical shoot positioned (VSP) canopy ensures even and early fruit maturity. Shoot thinning, shoot positioning, leaf plucking, bunch thinning and harvest are all carried out by hand to ensure optimum quality fruit. Cover crops are planted between rows to assist in vine balance and to improve soil health and general biodiversity

Vintage

The growing season was most unusual with spring being the warmest and most stable to date and no frosts. We experienced a very early, fast and successful flowering which resulted in solid crops across all varieties. We were relieved to see things cool down in January, which set the pattern for a cooler and wetter mid-season. The description "wetter" must be read with respect to our normal very low rainfall, so still not a lot of rain. The weather settled for a flawless and warm Indian summer during harvest. There was no rain and the harvest started very early on March 21. We see the wines as being less overtly fruity (possibly a good thing as overtly fruity wines can appear one dimensional and simple) with reasonably firm structures and a pleasant kind of rusticity about them. Precision, mineral and tension will be good descriptors for the 2011's.

Vinification

The unique gravity flow winery enabled the grapes to be gently destemmed directly into open-top fermenters without pumping with approximately 20% as whole clusters. Traditional fermentation with a moderately long maceration on skins has extracted good colour and tannin with considerable depth of flavour. This wine was aged for 13 months in French oak barrels from highly regarded Burgundian coopers. In accordance with our non-interventionalist approach to winemaking, this wine was fermented with indigenous yeast and was not fined or filtered.
