

FELTON ROAD

2018 Felton Road Pinot Noir *Block 5*

Tasting Note

A brooding nose led by hints of blackberry, potpourri and polished leather notes. Radiant energy initiates a palate that's finely focused and dances across the tongue. Its precision and completeness combine complex components in perfect harmony: not a step out of line and perfectly formed. The finish seems to never end while you contemplate this as one of the great Block 5's. Patience with time in barrel has paid dividends in this extraordinary rendition.

Introduction

Beginning with meticulous site selection and vineyard design started in 1991, Felton Road's story is one of refusal to compromise. A strict 100% estate policy with fully organic and biodynamic viticulture (Demeter certified) ensures that our fruit arrives at the winery as pure as it can be, while our entire estate comes as close to true sustainability as is possible. A commitment to hands off winemaking: gravity flow, wild yeasts, wild malo, an avoidance of fining and filtration all help preserve the wine's expression of its terroir. The result is Riesling, Chardonnay and Pinot Noir which accurately express the authenticity and complexity of our unique vineyards.

Gareth King; Viticulturist, Blair Walter; Winemaker, Nigel Greening; Proprietor.

Vineyard & Viticulture

Felton Road farms four properties totaling 32 ha in the Bannockburn sub-region of Central Otago. Block 5 is situated on a gentle north facing slope in the heart of The Elms vineyard and was planted in 1993. The soils vary up the slope from heavy loess and silt, clay and angular schist gravels. Meticulous summer management of a single vertical shoot positioned (VSP) canopy ensures even and early fruit maturity. Shoot thinning, shoot positioning, leaf plucking, bunch thinning and harvest are all carried out by hand to ensure optimum quality fruit. Cover crops are planted between rows to assist in vine balance and to improve soil health and general biodiversity.

Vintage

A vintage characterised by exceptional heat, with warmer than normal overnight temperatures being of particular note from October through January. As has often been the case, this was a vintage of two halves. When our calendars moved from January to February, the turning of the page was both literal and figurative. Temperatures crashed back down to ordinary levels (in fact, the coolest in 14 years) and the drought was broken by the wettest February on record. This cool and wet month slowed the ripening considerably and fortunately allayed our concerns for the potential style and quality of the wines; due to the preceding warm months and advanced season. Harvesting began early on 28 February and proceeded in an orderly and measured pace over the next three weeks.

Vinification

20% of the fruit was retained as whole clusters with the remainder carefully de-stemmed directly to the fermenters by gravity without harsh pumping. Long pre-fermentation soaks of 8-10 days prior to fermentation with indigenous yeasts and punched down by hand up to two times per day with a total time on skins of 21-23 days. Pressed off and barrels filled immediately by gravity to the underground barrel cellars. The wine spent 16 months in barrel (30% new French) with two rackings and no fining or filtration, before bottling in late-August 2019.
