

## FELTON ROAD

### 2009 Felton Road Pinot Noir *Block 3*

#### *Tasting Note*

*As always, the nose is dancing between crushed herbs, florals of rose or violets, musk and dark fruits. The palate is inviting, seamless, with deep, sweetly textured, firm but welcoming chocolate-mocha coated tannins. The wine has great breadth and the promise of power, but without any overt muscularity. Finishes with firm structure: clean, long and hinting of a lot more to come with time in bottle.*

#### *Introduction*

Beginning with meticulous site selection and vineyard design started in 1991, Felton Road's story is one of refusal to compromise. A strict 100% estate policy with fully organic and biodynamic viticulture ensures that our fruit arrives at the winery as pure as it can be, while our entire estate comes as close to true sustainability as is possible. A commitment to hands off winemaking: gravity flow, wild yeasts, wild malo, an avoidance of fining and filtration all help preserve the wine's expression of its terroir. No additions or adjustments are performed unless they absolutely need to be. The result is Riesling, Chardonnay and Pinot Noir which we believe express the authenticity and complexity of our unique vineyards.

Gareth King; Viticulturist, Blair Walter; Winemaker, Nigel Greening; Proprietor.

#### *Vineyard & Viticulture*

Felton Road farms three properties totaling 32 ha in the Bannockburn sub-region of Central Otago. Meticulous summer management of a single vertical shoot positioned (VSP) canopy ensures even and early fruit maturity. Shoot thinning, shoot positioning, leaf plucking, bunch thinning and harvest are all carried out by hand to ensure optimum quality fruit. Cover crops are planted between rows to assist in vine balance and to improve soil health and general biodiversity

#### *Vintage*

The season started with a normal spring, neither hot nor cool with normal rainfall. There were the usual occasional frost events that were able to be successfully fought. Good weather over flowering resulted in an excellent fruit set. The summer was on the cool side and then February which is normally our warmest and most stable month, was unseasonably cool and wet (although wet for us is still only 48mm but falling on six occasions). In recognition of the cooler summer and then the cool February we were determined to keep crop levels down, so crop thinned more aggressively than normal. Also in recognition of the wet February, we leaf plucked exposing the fruit which is not usual for us. March was a return to normal warm and stable weather and the vines ripened very smoothly and holding great canopy despite the challenges in the weather.

#### *Vinification*

The unique gravity flow winery enabled the grapes to be gently destemmed directly into open-top fermenters without pumping with approximately 25% as whole clusters. Traditional fermentation with a moderately long maceration on skins has extracted good colour and tannin with considerable depth of flavour. This wine was aged for 14 months in French oak barrels from highly regarded Burgundian coopers. In accordance with our non-interventionalist approach to winemaking, this wine was fermented with indigenous yeast and was not fined or filtered.
