

FELTON ROAD

2010 Felton Road Riesling *Bannockburn*

Tasting Note

Hints of mineral and flint gently sweep over aromas of citrus flower and lime. The rich texture is the first overwhelming impression, with apricot emerging over the lime and floral characters. Although sweet, the bright acidity leads to a clean and persistent finish. Lively, precise and a unique expression of our Bannockburn Terroir.

Introduction

Beginning with meticulous site selection and vineyard design started in 1991, Felton Road's story is one of refusal to compromise. A strict 100% estate policy with fully organic and biodynamic viticulture ensures that our fruit arrives at the winery as pure as it can be, while our entire estate comes as close to true sustainability as is possible. A commitment to hands off winemaking: gravity flow, wild yeasts, wild malo, an avoidance of fining and filtration all help preserve the wine's expression of its terroir. No additions or adjustments are performed unless they absolutely need to be. The result is Riesling, Chardonnay and Pinot Noir which we believe express the authenticity and complexity of our unique vineyards.

Vineyard & Viticulture

Felton Road farms three properties totaling 32 ha in the Bannockburn sub-region of Central Otago. Meticulous summer management of a single vertical shoot positioned (VSP) canopy ensures even and early fruit maturity. Shoot thinning, shoot positioning, leaf plucking, bunch thinning and harvest are all carried out by hand to ensure optimum quality fruit. Cover crops are planted between rows to assist in vine balance and to improve soil health and general biodiversity

Vintage

The season started slowly after a cool and wet winter. There were some frosts throughout the spring but nothing severe that couldn't be fought and no damage was sustained. Excellent weather during flowering and with a little green harvest in some blocks, resulted in perfect crop loads and a very even bunch maturity. January was cool and wet but then February and March balanced this with warm and very dry weather. The vines were in very healthy condition with harvest commencing on March 30 and concluding on April 23. There was nothing extraordinary about the growing season and it can be regarded as a very fine year. Low sugar levels at harvest (important to keep alcohols from climbing too high) and stable acidities were a very pleasing aspect of the 2010 vintage.

Vinification

Riesling grapes from Calvert & Elms vineyards were carefully whole bunch pressed, fermented with indigenous yeasts and the fermentation stopped by chilling when the optimal balance was achieved between the acidity, alcohol and residual sugar (60g/L). Careful winemaking with minimal processing highlights the crisp natural acidity and the Riesling characters are delicately poised in the low alcohol of 9.5%.
